

Many users who demand online tool to assess their skills and find their way into the workplace. Companies also require a tool that facilitates finding the psychological profile for the business needs.

This project joins employability and discover the skills of young people from 14 to 21 years!

The innovative project joins that form balanced partnership: expert institutions in conducting psychological tests as the association (AT), and other health experts in training and competitions (SK, ES, CZ, LT)

Due to the transfer of the project an international, European skill level of the adolescent will be possible. The applicant's profiles of the adolescents at the online platform enable the companies to pick of the best fitting applicant, according to the objective evaluation. Additional there will be a content development (development of the subtests), a geographical expansion

(SK, ES, CZ, LT) of the test system, which was developed with the partners and thus a transfer into another culture group.

The psychological assessment, which is integrated into the data base, is linked to the website and will be enhanced by subtests of the areas cognitive skills, interests and personality after a target group focused requirements analysis at the companies and adolescents is done.

The screenshot shows the homepage of the Discover-EU website. At the top, there's a green header bar with the 'DISCOVER' logo and a language dropdown set to 'English'. Below the header, a large banner asks 'Do you want to Discover... Your SKILLS, Your STRENGTH POINTS, Your POSSIBILITIES?' It features a globe held by two hands and a 'Take our test' button. The main content area has three sections: 'For candidates' (with a photo of two people and text about defining professional profiles), 'For companies' (with a photo of a person in a suit and text about finding right candidates), and 'Blog' (with a photo of a person writing and a link to 'Spanish News'). The footer contains links for 'Index', 'News', 'Meetings', 'Documentation', 'Partners', 'Contributions', 'Test', and 'Links'.

Muchas personas demandan una herramienta online que les permita evaluar sus habilidades y encontrar trabajo. Las empresas también necesitan una herramienta que les facilite hallar el perfil psicológico que sus negocios necesitan.

¡Discover auna empleabilidad y el descubrimiento de las habilidades de jóvenes entre 14 y 21 años!

Este innovador proyecto se nutre de la experiencia de sus socios en diferentes sectores: instituciones expertas en la elaboración de tests psicológicos (Austria), y otros expertos en competencia y aprendizaje (Eslovaquia, España, República Checa y Lituania).

Gracias a la internacionalidad del proyecto, es posible la evaluación a nivel europeo del adolescente.

El disponer de los perfiles de los solicitantes en una plataforma online como la del proyecto, permite a las empresas elegir el mejor candidato de acuerdo con una evaluación objetiva.

Además el proyecto contará con expansiones geográficas del sistema de tests (para Eslovaquia, España, República Checa y Lituania), desarrollados por los respectivos socios específicamente para su grupo cultural.

La evaluación psicológica, almacenada en una base datos, es enlazada desde la web del proyecto y será perfeccionada con subtests de áreas como las habilidades cognitivas, intereses y personalidad.
